QUESTION BANK FOR CAE III

SUBJECT: Computer Architecture And organization

Srno	Question	Unit	BL	CO	PO
1	Draw and Explain computer system with different components.	1	1	1	1
2	Explain phases of Instruction execution cycle of computer	1	2	1	1
3	Describe Registers in detail.	1	1	1	1
4	What are different addressing modes? Explain any two by giving an example.	1	2	1	1
5	Explain Von Neumann and Harvard Architecture.	1	2	1	1
	Explain Subword Parallelism With Example.				
5	Explain Instruction execution Cycle of computer	1	2	1	2
6	Explain Control Unit in detail	1	1	1	1
8	Write Difference between RISC and CISC Processor	2	2	2	1
9	Explain Basic Function block of a computer.	2	1	2	1
10	What is Sub-Word parallelism?	1	1	1	1
11	Solve the following for fixed point arithmetic. (i) 14+9 (ii) 18-7	2	1	2	2
12	Explain Booth's Algorithms for Multiplication and Division .	2	2	2	1
13	Explain IEEE Single Precision Format for floating point number.	2	2	2	1
14	Explain Hardwired Control Unit.	5	2	5	1
15	Explain Microprogrammed Control Unit with Block Diagram.	5	3	5	3
16	Write Differences between Microprogrammed and Hardwired Control Unit.	5	1	5	3
17	Why Microprogrammed control unit is better than Hard wired control unit.	5	2	5	2
18	Explain Horizontal And Vertical V-Programmed.	5	1	5	1

19	Perform 1's complement and 2's complement on (i) 1001000110 (ii) 11100111 (ii) (5.875) ₁₀	2	2	2	3
20	Perform IEEE Single Precision format for floating point number.	2	1	2	3
