

QUESTION BANK CAE-1

Subject:[Operating Systems]

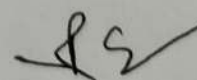

Class: SYAI[A] (UCAIL202)

Sr no	Question	Unit	BL	CO	PO
1	Explain time sharing or multitasking operating system	I	2	1	1
2	Explain the types of Operating System.	I	2	1	1
3	Describe the evolution of the operating system.	I	2	1	1
4	What is a multiprogramming system? Give two advantages of it.	I	1	1	1
5	What is a system call ? Enlist any four system calls.	I	1	1	1
6	Describe six services provided by an operating system	I	2	1	1
7	Explain layered and microkernel operating system structure.	I	2	1	2
8	Explain real time operating systems with examples.	I	2	1	2
9	Discuss the Basic hardware support necessary for modern operating systems.	I	2	1	5
10	List the examples of system calls in Windows and Unix.	I	2	1	1

11	What is the process? Explain the different process state with the help of a state diagram.	II	1	2	1															
12	State and describe types of schedulers. Describe how each of them schedules the job.	II	2	2	2															
13	Distinguish between short term and long term scheduler.	II	4	2	1															
14	What is pre-emptive and non preemptive scheduling?	II	1	2	2															
15	What is Scheduling? State and explain Three scheduling criteria.	II	1	2	2															
16	Explain with example Shortest job first scheduling.	II	2	3	2															
17	Calculate average waiting time for following data using First Come First Served (FCFS) and Shortest Job First (SJF) algorithms <table border="1"><tr><td>Process</td><td>Burst Time</td><td>Arrival Time</td></tr><tr><td>P0</td><td>8</td><td>0</td></tr><tr><td>P1</td><td>4</td><td>1</td></tr><tr><td>P2</td><td>5</td><td>2</td></tr><tr><td>P3</td><td>3</td><td>3</td></tr></table>	Process	Burst Time	Arrival Time	P0	8	0	P1	4	1	P2	5	2	P3	3	3	II	2	3	2
Process	Burst Time	Arrival Time																		
P0	8	0																		
P1	4	1																		
P2	5	2																		
P3	3	3																		
18	Explain the concept of context switching with steps involved.	II	2	2	2															
19	Explain the structure of process control block.	II	1	2	1															
20	Differentiate the process and thread on four points.	II	2	2	1
